

Diet remedies for
Weight Loss

Your Guide to Weight Loss

Diet Remedies for Weight Loss

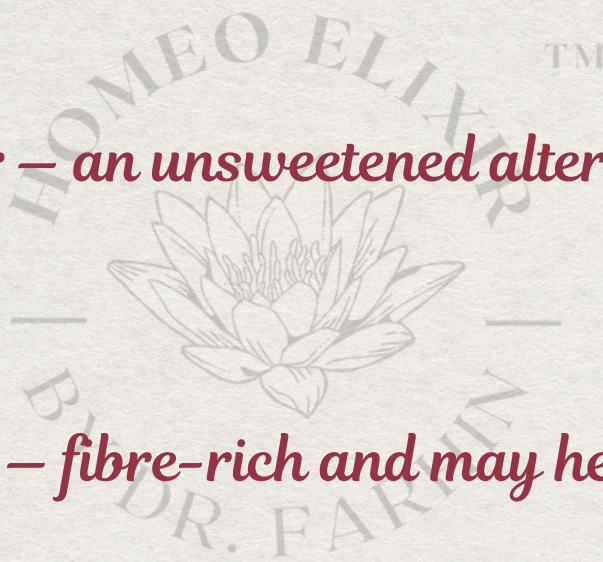

** Jeera + Ajwain + Saunf Water – a low-calorie herbal drink that may support digestion; it does not directly burn fat.*

** Cinnamon Water – an unsweetened alternative to sugary beverages.*

** Chia Seed Water – fibre-rich and may help improve fullness.*

** Flaxseed Powder – adds fibre and healthy fats, supporting satiety.*

** Green Tea – contains caffeine and catechins; any effect on weight loss is generally small.*

Diet Remedies for Weight Loss

- * Ginger + Lemon Water – a refreshing low-calorie drink that can replace sweetened beverages.*
- * Isabgol Water – soluble fibre may increase fullness; take with plenty of water and separate from medications.*
- * Soaked Methi Seeds – provides fibre and may support metabolic health.*
- * Apple Cider Vinegar Water – evidence for weight loss is limited; always dilute it and avoid if it causes acidity.*
- * Protein Seed Mix – pumpkin, sunflower, flax and chia seeds can help with satiety, but portions matter because seeds are calorie-dense.*
